<u>X</u> Midterm report (covering July 2005-March 2006 activities) **DUE:** April 15, 2006
 __Final report (covering April 2006-Dec. 2006 activities) **DUE:** Jan. 15, 2007
 Note: Your Final Project Billing Form and documentation will be due to the DNR (Kathleen Moench) on Feb. 29, 2007. See Grant Agreement, Attachment B.

1) **Project summary**

The Iowa Association of Naturalists, Iowa Conservation Education Council, and National Association for Interpretation (NAI) would like to see many Iowa educators take part in the NAI Region V workshop to be held in Dubuque in April 2006 without worrying about the cost. This can be achieved by offering scholarships in the amount of \$200.00 to those who would otherwise be unable to attend.

2) Objectives and activities

The REAP CEP Board expects all work outlined in your original proposal to be completed. At a minimum, briefly explain activities completed to date for the following, as well as the percent of total work completed to date. Add other objectives as you deem appropriate.

- 1. Participants take part in sessions about EE, interpretative strategies, networking and other professional development. They will learn new programs and new ways to enhance their interpretive abilities.
- 2. Potential recipients of scholarships agree to complete two evaluations describing how they applied what they learned at the workshop to benefit either their job or personal life.
- 3. Scholarship recipients will complete one evaluation directly after the workshop.
- 4. Scholarship recipients will complete another evaluation six months after the workshop.
- 5. Public communications activities.

#1: Market REAP CEP and workshops (i.e., public communications) Activities: 1) Seven news releases published in: Iowa Reading Association, Iowa Middle Level Educators and Iowa Recycling Association newsletters as well as in the Creston, Clear Lake, Dubuque and Davenport newspapers. 2) Two workshop announcements published in Iowa Environmental Council listserv and in Iowa Conservation Education Council newsletter Additional explanation, if needed: N/A	Percent completed to date

Published scholarship and workshop announcement in summer, fall, and winter 2005 NAI Region V newsletter, Buffalo Bull. 5. E-mails were sent to several teacher listserves and the IAN Listerve announcing the scholarship and workshop. Additional explanation, if needed: In the first evaluation scholarship recipients complete, they will be stating how they learned about the scholarship and workshop. This will allow us to judge the effectiveness of each of the above advertising routes. 	100%

- 5) Please briefly describe the contributions of third parties and of your organization to this project. A detailed accounting is not required, though the REAP CEP Board wants to ensure grantees provide a good faith effort to meet their proposed cash and in-kind matches.

The grant and workshop committie's volunteered their time. Advertising and marketing for the workshop and scholarship were donated by IAN, NAI, and ICEC. This included advertising in their newsletters and on the web sites for each of the above groups. IAN also contributed a cash match of \$2000.00. This will be used to reimburse scholarship recipients the second half of their funds. See Appendix D.

What outputs and/or outcomes were identified? Please list each one and describe each in detail below. Note: If outputs and outcomes are not available for your midterm report, so indicate. Be sure to include the outputs and outcomes outlined in your grant proposal, such as:

<u>Outputs:</u> The average number of participants from Iowa at regional workshops is generally 8-12 (Illinois 2005 had 18, Nebraska 2004 had 13.) The number of Iowa participants in 2006 will be at least 108 due to the availability of scholarships to offset registration costs.

Outcomes:²

1. 60% of participants surveyed will implement strategies learned and incorporate information learned into their programs/lessons.

This outcome is not available as the workshop has not yet been held.

- 2. 100% of scholarship recipients will agree to complete two evaluations after the workshop. *In replying to their receipt of the scholarship, 100% of the recipients have agreed to fill out the two evaluations.*
- 3. 100% of scholarship recipients will complete the evaluation of intended application of obtained information directly after the workshop.
 - This outcome is not available as the workshop has not yet been held.
- 4. 60% of scholarship recipients will complete an evaluation six months after the workshop to describe how they were able to apply learned information to their job or personal life. *This outcome is not available as the workshop has not yet been held.*
- 6) Remember: Include a completed Project Expenditure Summary with your midterm and final reports.
- 7) Other comments?

Note: Changes in the proposed budget that deviate from any line item by 10% or more must be approved before the expenditure occurs. Contact CEP Contract Monitor, Susan Salterberg, at Salterberg@uni.edu or 319-337-4816 to request changes. She may approve small changes and subsequently inform the REAP CEP Board. If she is uncertain, she will present those requests to the REAP CEP Board and inform grantees of Board's decision. The Board may request additional information, and may or may not negotiate a revision to the contract to allow for expansion or modification of services. If a revision is granted, no increase in the total amount of the grant award shall occur. Once approved, the DNR director or the REAP CEP coordinator will provide a written amendment to the agreement.

Susan Salterberg, CEP Monitor, shall be your first contact regarding changes to the proposed budget.

Summary

Professionals in the field of environmental education were more likely to be elected to the board of a related organization after they had worked in the field for a number of years. Generally board members have been working between 8 and 30 years in the profession, with the average being 13 years. Service on a committee was similar to being elected to a board. People working in the profession between 3 and 30 years were likely to serve on a committee, with the average being 13 years. Those who served as volunteers were people who had been in the profession a shorter amount of time. Those who volunteered have been in the field between 1 and 30 years, with the average being 9 years.

Financial need falls into four categories: Issues sending multiple staff to workshops, no in-service budget, budget cuts or small budgets, and restrictions or limitations on attending certain workshops.

- -Most scholarship recipients receive no in-service money from their employers (56).
- -Budget line items for in-service and professional development are often the first to be cut in many organizations (13).
- -Organizations sometimes can send one staff member to an in-service event but not multiple staff members (9).
- -Some organizations restrict the employee to one in-service event per year, one specific workshop, or attendance at the workshop may depend on the workshop location (6).

Clearly the information shows a need for financial assistance for environmental educators to attend inservice and professional development events.
